MYTH BUSTING

56%

think it is good practice to **brush your teeth straight after every main meal**

TRUTH Wait at least 30 minutes if you are going to brush

68%

incorrectly rinse their mouth out with water after brushing, with 63% thinking this is good practice

TRUTH Don't rinse with water straight after brushing; spit out excess toothpaste to maximize the protective effects of fluoride

WORST OFFENDERS

36%

think that drinking fruit juice is **better for your oral health** than fizzy drinks

TRUTH Fizzy drinks and fruit juice can both be high in sugar, which can cause tooth decay

ORAL HEALTH HABITS

ONLY **28%**

identified **drinking alcohol in moderation**, as important for good oral health

56%

brush their teeth at least **twice a day for two minutes** with a fluoride toothpaste

TOP TEETH BRUSHERS

WORST TEETH BRUSHERS

66%

know to **avoid tobacco use**

69%

recognize that eating **excessive sugar is bad** for oral health

TO VISIT THE DENTIST OR NOT

77%

know that it's good oral health practice to **visit a dentist once a year**; however, only **52%** tend to go

67%

of people recognize the need to **visit a dentist after seeing signs of bad oral health**; but only **42%** tend to seek advice

BEST FOR GOING TO DENTIST
