Total Camps Conducted: 18

Total Patients Screened: 1119

“**Swasth Nari, Sashakt Parivar Abhiyaan**” is a nationwide public health initiative launched by the Ministry of Health and Family Welfare, Government of India, and inaugurated by the Hon’ble Prime Minister, Shri Narendra Modi. The campaign envisions *Healthy Women, Empowered Families, Stronger India*.

As part of this mission, the **Department of Public Health Dentistry, Government Dental College and Hospital, Mumbai**, organized a series of dental health screening and education camps across Mumbai and the Mumbai Suburban region. With the motto “**Empowering Women Through Oral Health Awareness and Preventive Care**,” the initiative focused on strengthening a crucial yet often overlooked aspect of women’s health—oral well-being.

Between **17th September and 2nd October 2025**, a total of **18 camps** were conducted, benefiting **2625 individuals**. The camps targeted diverse groups, including school children, police personnel, housekeeping staff, OBGY patients, and nursing staff. In addition to free dental screenings and treatment referrals, the camps emphasized sustained awareness and preventive oral care.

The programme aimed to promote oral hygiene awareness, detect common dental issues, provide referrals for further care, and educate women about the integral link between oral health and overall health. Through focused screenings and interactive health education sessions, the initiative empowered women with essential knowledge, encouraged preventive practices, and fostered long-term health-positive behaviours within families. A healthy woman forms the cornerstone of a healthy family, and investing in her oral health is a vital step toward that shared vision.
